- Foil lamination for insulation & shielding
- ... and more!

**THE FLAME-RETARDANT
 POLYCARBONATE
 WITH A UL94 V-0
 RATING**

A great addition to the LexEdge™ family of products! LexEdge has been the label & decal film of choice of aircraft manufacturers, airlines, and maintenance activities for years. Delta, KLM, British Airways, Alitalia, Sabena, US Airways, the US Air Force, and US Army rely on Gerber's 10-mil flexible Lexan™-based polycarbonate for its consistency, quality, and compliance with FAA regulations. Now it meets stringent UL94 V-0 flame-retardant specifications, too.

LexEdge FR65: UL94 V-0 rating PLUS all the features of LexEdge:

- Excellent adhesion, consistency, and clarity
- Virtually haze-free, with reverse-printing for durability
- True digital spot color printing
- Dimensionally-stable, with excellent dielectric performance
- Ideal for short production runs
- Smooth printable surface; perfect for printing custom information and variable data
- Tough, yet flexible—holds its shape when bent
