

**TITLE: G32Trust.dll is already in memory**

Category: OMEGA

Document Number: 3573

Supplied by: Gerber Service

Last Modified: September 29, 2008

Summary: The message G32trust.dll is already in memory when installing OMEGA software

---

**ISSUE:** Install failure due to G32trust.dll is already in memory message when installing OMEGA software**CAUSE:** This may be due to duplicate g32trust.dll files or install failing to find a gsp.ini file**SOLUTION:**

1. Search for g32trust.dll and delete them all

If step one is not successful,

2. Copy gsp.ini from the OMEGA CD to the C:\windows folder

Restart the installation.
