

Gerber Security Label Stock

Feature	Benefit
EDGE READY™ Manufactured and converted by Gerber for use with GerberColor™ Foils and the GERBER EDGE®.	<ul style="list-style-type: none"> ◆ Optimal printing results means less wasted material and greater profits. Superior finished product translates into repeat business.
Precision punched	<ul style="list-style-type: none"> ◆ Precise punch pattern provides outstanding print registration with the EDGE and perfect tracking through Gerber plotters. This means less wasted material, greater productivity and increased profits.
Tamper evident adhesive	<ul style="list-style-type: none"> ◆ Void pattern in the adhesive will allow the EDGE owner to appeal to new markets.
Polyester material	<ul style="list-style-type: none"> ◆ Provides extreme dimensional stability. Graphics won't shrink. The superior finished product will translate into repeat business. ◆ Material is easy to apply. Finished labels can be handed to the customer on a roll and they can apply them themselves. By eliminating the installation step, the EDGE owner will save time and money.

Gerber Security Label Stocks are ideally suited for producing labels for the marking of electronic equipment, computers, inventory and for producing permit/security decals. Once the decal is removed, the void pattern remains on the substrate and the decal can not be replaced.
