PT5277A

You want results - and fast... You want to take your concept, your identity or promotion and know that the image you've worked so hard to develop will be visually strengthened - and turned into reality. And you know that the only one you trust this with is a graphics professional with standards as high as yours. Our company has the expertise to ask the right questions and understand your individual needs. Our state-of-the-art GERBER EDGE® digital printing equipment and highly trained staff will provide results sure to meet - or exceed - your expectations.

Industrial Labels

Industrial labels using UL® recognized materials and components are always just a call away.

Label Stock

Special polyester label stocks are available for general purpose and even high-temperature label applications.

Serialized Labels

Serialized labels, tags and decals in just about any numbering scheme you may have can be printed and cut to size. No project is too big or small.

Holographic

Holographic films are one of the latest trends in labels and decals.

Safety and Warning

Safety and warning labels, signs and decals aren't just smart - they're required! Whether it identifies hazardous cargo or provides proper usage instructions, we can produce it.

Security Labels

Ask about our Security Label Stock with the "VOID" adhesive system. It's the ideal way to prevent unauthorized transfer of labels, permits and certificates.

Extra Tough Graphics

Equipment and machinery often require sub-surface labels, nameplates and overlays made of extra-tough Lexan® polycarbonate materials. Available in 3 finishes and performance levels.

Promotions

Need Decals? You've got it! Select from static cling to magnetics or films with removable or permanent adhesives. Nearly any shape, size or color - ideal for promotions, events or identification.

Custom Labels

Custom package labels - personalized for your valued clients.

Outdoor Durable

Labels and decals are outdoor durable for years without special coatings or laminates. Even if you do have unique requirements - including frequent abrasion or chemical contact - we can meet your needs.

Thousands of Colors

Whether it's a standard color or a specified PANTONE® Color simulation - we can probably match it better than anyone. Thousands of colors - including vivid spot colors, pastels or metallic finishes.

Color Matching

Red-hot reds, vivid blues, cool greens and color blends - even soft pastels or special metallic finishes.

Our Pledge to You.

We understand that our primary mission for gaining and keeping your graphics business is to produce graphics that generate results and meet your objectives. And because we're as committed to producing quality graphics as we are committed to delivering them on time, we exclusively use the printing materials and components certified and technically supported by the manufacturer of our printing system - Gerber Scientific Products. These EDGE READY™ and IMAGE READY™ products are tested and proven for quality, durability and performance. It's just one of the many things we'll do to meet your needs today and secure your business in the future.

Color Matching.

Our GerberColor Spectratone™ matching guide allows us to create thousands of colors in addition to our standard range. Sure - we can do four-color process printing - but our spot color printing expertise sets us apart. If you need a specific color and "close enough" isn't "good enough", call on us. Red-hot reds, vivid blues, cool greens and color blends - even soft pastels or special metallic finishes - we have the tools to get it done!
