

Composer Version 5.0.0.1370
July 23, 2014
Requires OMEGA 5.0 Auto Update / Service Pack Build 73

<p>This file fixes Composer View Menu items that may spontaneously turn on after being turned off.</p> <ul style="list-style-type: none">• Composer View Menu>Click on one of the following: Show Spectratone II Colors; Show Overprints; Show Imaging Proof Colors or Show Smooth Drawing.)	
<p>Additionally, these items can now be successfully preferenced on or off in the Composer Tools Menu>Options>View Tab.</p> <ul style="list-style-type: none">• Go to Tools>Options>View Tab>Turn the items on or off>Click Preferences>Click Save Current Page>Click OK	

Please follow these instructions to download and use this file:

1. Be sure you have OMEGA 5.0 loaded.
2. Close all OMEGA programs.
3. Go to Composer>Help>Check for Updates (requires an Internet connection). Follow the instructions to update your system to the latest OMEGA 5.0 version.
 - The latest OMEGA 5.0 Service Pack can also be downloaded from <http://www.gspinc.com/service/software-downloads>. Download and install the OMEGA 5.0 Service Pack from this web page.
4. Go to <http://www.gspinc.com/service/software-downloads>. Download the file GspComposer_1370.zip
5. Unzip the file to a known location on your hard drive.
6. Go to the Omega 5.0 Program group, then go to OMEGA Folder Locations, then click on shortcut to go to the OMEGA 5.0 Software folder.
7. Find and rename the existing GspComposer.exe to Gspcomposer.old.
8. Copy the attached file from Step 4 into the software folder.
9. Run Composer as usual.
