

GerberColor™ Foil Cartridge Outdoor Durability Charts

Gerber FastFact # 4270

Supplied by: Aftermarkets

Last Modified: August 26, 1997

Summary: This document offers a listing of the GerberColor™ foils available from Gerber for the EDGE™ Digital printer. This list includes part numbers and outdoor durability information.

Expected Performance Life:

When printed on Gerber approved vinyl films and applied in accordance with Gerber recommended procedures, the following performance may be expected.

1. These durability results are based on accelerated weathering tests we believe to be reliable.
2. A significant decrease in performance life may be experienced when graphics have been applied to surfaces which are other than vertical.
3. Climatic variations will yield varying results compared to the above.

GerberColor Process (GCP) Series SUPER CMYK 45 meters		Outdoor Durability
Resin-Based, Outdoor Use		
SUPER CMYK Process Yellow	P65402A	3 years
SUPER CMYK Process Magenta	P65403A	3 years
SUPER CMYK Process Cyan	P65404A	3 years
SUPER CMYK Process Black	P65405A	3 years
