

TITLE: EDGE FX Syntax Error

Category: GERBER EDGE

Document Number: 4282

Supplied by: Gerber Service

Last Modified: January 24, 2014

Summary: EDGE FX displays Syntax Error

ISSUE:

EDGE FX displays syntax error.

CAUSE:

This may be due to:

1. Unexpected data received at the EDGE FX from the PC.

SOLUTION:

1. Visit <http://www.gspinc.com/edge-fx> and download and install the latest build of firmware for the EDGE FX and any Software Service Packs or **Maintenance Updates** that you are eligible for.
2. If step one does not correct the Syntax error please contact GSP support @ 800-828-5406 with specific details of how to replicate it and save the PLT files that were used that generated the error.
